NSPIRE: THE GOOD, THE BAD, AND THE UGLY

With three years of NSPIRE operation and experience, we have seen a lot. Implementation in 2023 resulted in good inspections and high scores, which have now regressed to questionable inspections and failing scores. What is going right or has gone wrong? What are the common findings? How do you respond to the inspectors and to the findings? What are the recent and upcoming changes? Log on to learn more.

Presented by: Dennis DiBello, COO / Chief Inspector, American Property Consultants, Inc.
